

→ java.util.ArrayList

Stack → Top, LIFO
 Queue → Front → FIFO
 List → Anywhere!
 X[5]

List Interface

ArrayList
 Node

add(E e)

contains(E e)

get(int i) ↑ index element

isEmpty()

remove(int i)

remove(E e)

set(int i, E e)

size()

add → push
 arr.get(5) → validate i
 validate i
 stuff[i] = e

for loop

"Hi" in T!

LL

java.util

arr.remove(3)

for (start at i)
 temp < size - 1
 temp ++

stuff[temp] =
 stuff[temp + 1]

size --

arr.contains("Hi")

for (temp 0; temp < size; temp ++)
 if (stuff[temp].equals(e))
 return true

return false;
